

## Construction of the labeler/boxing production line

Labor and space saving solution for the production line

### ➤ Labeling and boxing integrated into one equipment

- Labeling and boxing can be performed with one robot.
- The process layout is simplified as the equipment takes up less space.
- The labor saving solution resolves the shortage of workforce.

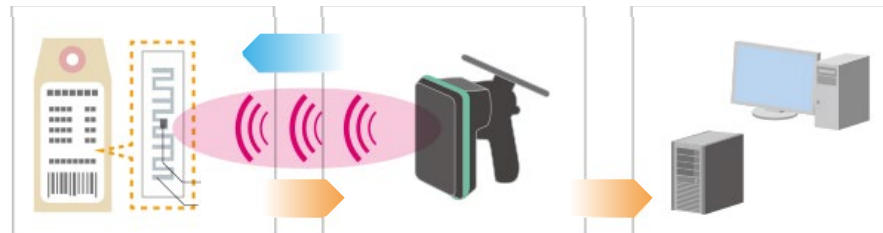

#### ■ Industries expected to introduce the labeler/boxing production line

- Pharmaceuticals - Cosmetics - Food - Chemicals

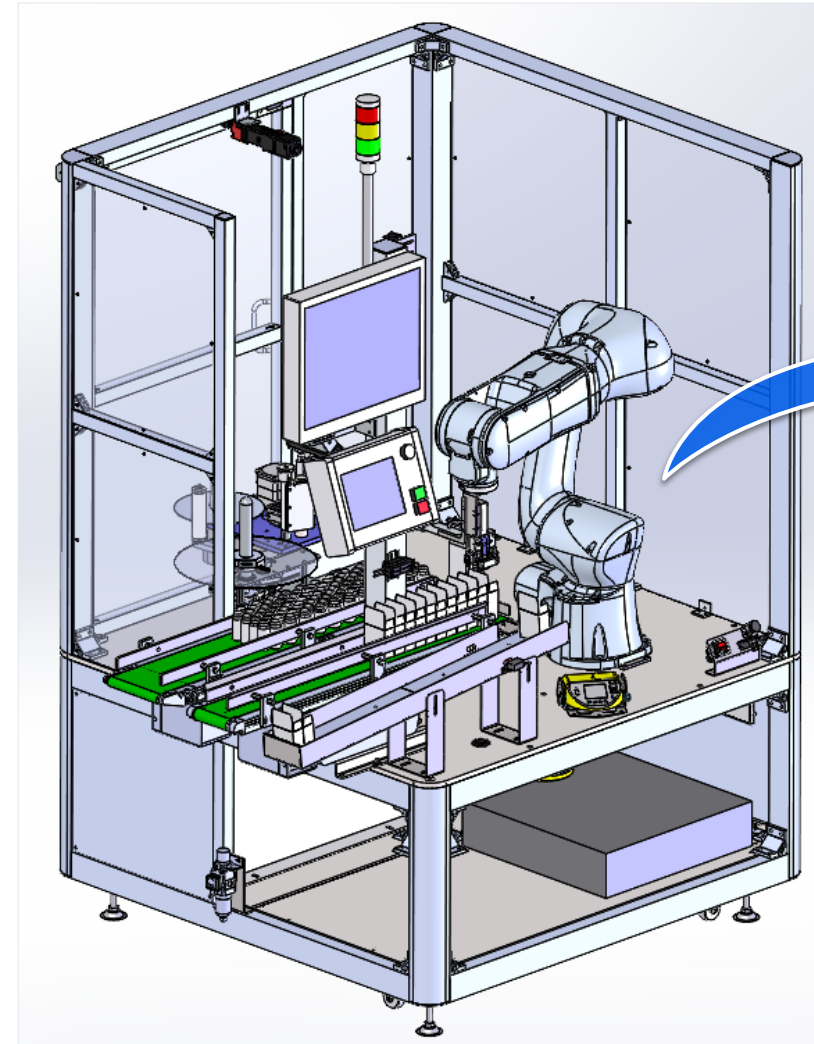

## Equipped with the RFID reader/writer

### ➤ Work efficiency improved with the use of RFID

- A single RFID system enables data reading of multiple products.
- Data rewriting is simplified.
- Product management is significantly streamlined.

## Robot labeler/boxing package
