

Office FA.com Co., Ltd.

Leading Robot System Integrator

» Features

» Diagram

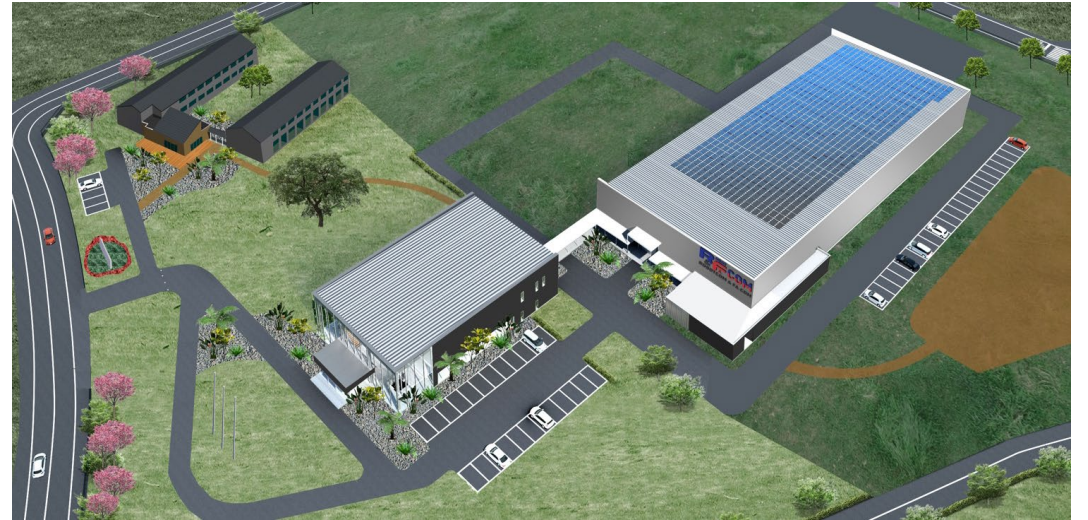

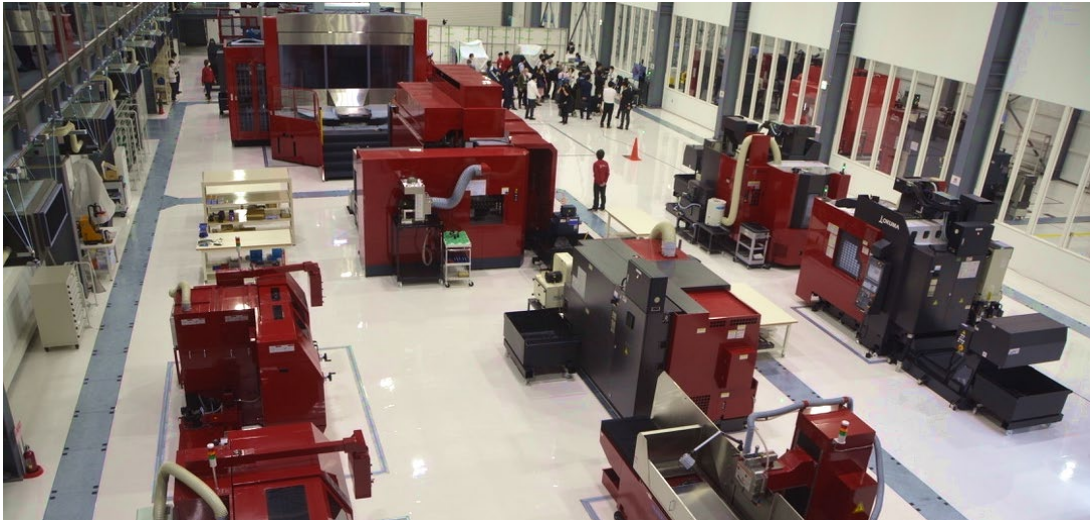

**Independent robot System Integrator
Familiar with all processes for Factory
Automation on-site.**

**Offering total solution for the entire
system from lower devices to upper
control**

**The group has more than 300
engineers, and supported more than
3000 factories to automate in 25 years.**

Office FA.com Co., Ltd. Minamisoma Digital Factory for Variant and variable production

Thorough energy management to achieve carbon neutrality

Production system optimized by "Digital Twin" and linked from sales to production facilities

Robust, non-disruptive network security

Through these efforts, we have built one of Japan's most advanced plants in Minamisoma City, Fukushima Prefecture, which can respond to variant and variable production.
