

MELSEC iQ-F Series iQ Platform-compatible PLC

Automating the World

MELSEC iQ-F Series iQ Platform-compatible PLC

Digitalization for Improved Data
Management and Operation Efficiency

The PLC MELSEC iQ-F Series iQ Platform-compatible PLC is designed to optimize and streamline factory operations through digitization and leveraging cloud capabilities. With the user-friendly setup of the MELSEC iQ-F Series, it provides a solution to facilitate a smooth transition with onsite IoT (Internet of Things), centralized device management across multiple locations, effective utilization of collected data, and remote monitoring with error notifications.

With its advantageous features, it makes data collection based on the cloud easy with the FX5-ENET Ethernet module. This module not only provides cloud data storage but also enables seamless integration with existing cloud systems. From improved connectivity and data collection to data visualization, predictive maintenance, and simplified troubleshooting, the PLC MELSEC iQ-F Series iQ Platform-compatible PLC can enhance overall productivity. This marks the initial steps toward superior operational efficiency.
