

Start IoT (Internet of Things) of your equipment using the internal functions of FX5S

Achieve IoT Using **FX5S**

Start IoT (Internet of Things) of your equipment
Using the internal functions of FX5S

MELSEC iQ-F
series

The ease of implementing an IoT (Internet of Things) system can be initiated with the PLC FX5S from the MELSEC iQ-F PLC series to support IoT connectivity across various devices on a machine. Furthermore, IoT functions can facilitate retrofit systems, enable remote monitoring of on-site systems, and allow hassle-free debugging.

With its comprehensive performance, the PLC FX5S is designed for easy data processing at high speeds, making it a reliable choice for implementing IoT in dependable and fast production processes.
