Mitsubishi Electric Named to CDP Supplier Engagement Leader

Second top-ranking designation in 2021, along with climate-change leader

TOKYO, February 10, 2022 – [Mitsubishi Electric Corporation](#) (TOKYO: 6503) announced today that its environmental efforts related to supply chains have earned the company designation as a 2021 “Supplier engagement leader,” the highest ranking in the CDP Supplier Engagement program operated by CDP, an international non-governmental organization that supports environmental disclosure. This is the fifth year in which Mitsubishi Electric has earned a top ranking for excellent actions and strategies to reduce greenhouse gas emissions and climate-change risk throughout its supply chain.

Mitsubishi Electric also received a top “A List” designation in the 2021 Climate Change category, as announced on December 10, 2021.*

* Please see <https://www.MitsubishiElectric.com/news/2021/1210.html>

Mitsubishi Electric's environmental initiatives reflect the company's Environmental Sustainability Vision 2050** policy, which declares to "protect the air, land, and water with our hearts and technologies to sustain a better future for all." In line with this policy, in June 2021, the company launched a new goal of net-zero CO₂

emissions by 2050, by reducing greenhouse gases throughout company's value chains, from development, design and procurement of raw materials and production through sales, distribution, use and disposal.**
Mitsubishi Electric aims to reduce environmental impact in terms of global value chains, energy-saving products and systems, and cutting-edge infrastructure, ultimately to realize decarbonization and more a sustainable global environment.
